# Aeternus Display

TTL I/O HMI with Python-Powered Industrial Control

# Aeternus HMI

*Directly Controls Arduino Peripherals*

**Panel Size : 5.0” | 4.3” | 3.5”**

- IPS TFT Display with PCAP
- Build-in PWM with capture function
- Build-in 10-bit Resolution analog input
- Supports I2C Interface
- Network interface : ETHERNET, WIFI
- Industrial communication interface : RS485, CANBUS, USB
